Attention contractors and property owners: construction projects occurring between October 1 and April 30 (rainy season) that are permitted by means of building or grading permits and where activity of construction projects results in the disturbance of soil such as soil movement, grading, excavation, clearing, road construction, or structure demolition; and where uncovered storage of materials and wastes such as dirt, sand or fertilizer occurs; or where exterior mixing of cementitious products such as concrete, mortar or stucco will occur, is subject to an NPDES inspection and fee per rainy season.
[] I, as owner of the property understand that my project is subject to an NPDES inspection and fee, per rainy season, if my project begins during the rainy season and/or continues into rainy seasons.
[] I, as the contractor or agent for the contractor understand that it is my responsibility to inform the owner of the property that their project is subject to an NPDES inspection and fee, per rainy season, if my project begins during the rainy season and/or continues into rainy seasons.
