For renovations, are homeowners exempt from all or part of Rule 1403?

There is an exemption that applies only to the legal owner of the single unit family dwelling (house) who is a permanent resident of this house and is personally performing this house renovation themselves (not employing a contractor or laborer, and not being helped by friends, family or anyone else). See Rule 1403 (j)(9).

I am a homeowner renovating my house; can I remove the asbestos myself from my house?

Yes, but only if you are the legal owner and a resident of this house (single unit family dwelling), and you are personally performing the asbestos removal (not employing a contractor or laborer, and not being helped by friends, family or anyone else). See Rule 1403 (j)(9).

There are no exemptions for owners of condominiums, townhouses, or apartments.

Due to health hazards and hazardous waste disposal requirements, the SCAQMD does not recommend that homeowners remove asbestos.
