Located in N. Orange County, the Children's Museum at La Habra was the first children's museum on the west coast when it opened in 1977. It is our mission to encourage enthusiasm about learning through the power of play.

Under the supervision of our curator, the intern will primarily work on the de-installation of our current changing gallery exhibit and installation of a new exhibit, DINOSAURS: Thunder Lizards. Many of the exhibit components are fabricated in-house; other elements range from multimedia, lighting, and interactive. Additionally, the intern will assist in our annual museum-wide "renovation" in which the museum closes to the public for refurbishments, repairs, and cleaning. Other duties may include organizing exhibits workshop and storage, updating collection list, researching collections methods, and researching upcoming exhibits.
