

TOMMY'S HAMBURGERS

1199 S. BEACH BLVD.
LA HABRA, CALIFORNIA

PROJECT DETAILS

A 2,378 square foot drive-thru Tommy's Hamburgers restaurant with 150-ft. long drive thru with stacking for nine cars, 14 parking spaces, an outdoor dining patio, landscaping and trash enclosure. Outdoor seating will contain moveable seating and will be enclosed with a 3-ft. high decorative wall that is topped with 3-ft. tall clear plexiglass along the southern and eastern sides. Architectural design includes stacked stone, covered wainscot and pilasters, tower elements, awnings, decorative cornice, stucco façade, tile accents and vertical metal landscape trellises. The interior of the restaurant will consist of 725 square foot dining room which will seat 56 patrons, a 260 square foot customer order area, a 390 square foot kitchen, 180 square foot storage area and two ADA-accessible restrooms. Proposed operation hours are 24 hours per day.
